Warden & Councillors:

At a recent meeting of Yarmouth Town Council, Council approved the following motion:

that the Town of Yarmouth send a letter to each Council in the Western Region from Kings County to Queens County explaining the need for a Radiation Unit in Yarmouth to better serve the people of the region with treatment options closer to home and ask them to send a letter of support to the NS Health Authority"

We all know many people who have gone through the experience of radiation treatment and have had to travel to Halifax to receive the treatment. The benefits of being able to have this treatment option in our region can be immeasurable when it comes to the well-being of the cancer patients and their families. The Province of Nova Scotia needs to hear the voices of the leaders in our region and understand how important this is to us.

Accordingly, I am writing you today to request your support for the establishment of a Radiation Unit at Yarmouth Regional Hospital in order to provide a convenient and affordable option for people going through cancer treatment in western Nova Scotia.

Yours truly,

Pam
